The Palm Beach Post

OUR GADGET PICK

As a pourer it aerates the wine, as a filter it strains the wine and keeps cork and sediment out of your glass, as a corker you don't need to mess with a cork once you've opened a bottle and it works great as an airtight stopper. The corker is dishwasher safe and can also be used for flavored vinegars and oils, and can seal glass bottles of soda. And for the price, they make great hostess gifts.

Peg San Felippo, a wine and food enthusiast, is a former chapter chairman of the American Institute of Wine and Food and has successfully completed the first level of the Court Of Master Sommeliers.
